

How WRYMC is Sustainable for YOU!

- WRYMC is using an App (with digital program!), Facebook and Twitter to communicate with attendees.
- Only 10 programs were printed on paper for the conference, with the program accessible via our WRYMC 2015 phone app.
- WRYMC has provided reusable bags and water bottles for attendee's use during the conference and beyond.
- The WRYMC committee met via phone for the first 6-8 months of planning to reduce transportation costs.
- Pre-conference volunteer event is close to the hotel and is focused on spreading sustainability knowledge, along with being a positive community involvement activity.
- The awards are made out of stone and recycled materials.
- The WRYMC Banquet location holds sustainability paramount.
- WRYMC is providing shuttle transportation discounts from the airport to the hotel to help encourage a reduction in vehicle emissions.
- Bus transportation was used for all industry tours, socials and the Banquet to provide the most efficient and fuel friendly transportation.
- WRYMC conference communication and planning was collected on OneNote to reduce paper and printing.

How YOU can be sustainable for WRYMC!

- Use the water bottle (in your registration bag) to keep hydrated throughout the event.
- Use public transit or shared transit to get to the conference hotel.
- Use your reusable bag that you receive at registration for the conference for anything you pick up around Seattle and beyond!
- Do your best to walk where you can! Not only does it help reduce pollution, it's a great way to see the city.
- When you wash your hands, try using just one paper towel.
- When you're taking notes, consider using a tablet or phone to send notes via email to yourself. (That way you remember to review them later also!)
- Be sure to turn off the lights when you leave your hotel room- it may not be power you or WRYMC pays for, but it helps to conserve electricity and natural resources.
